**August 10, 2016-** "It's always tricky owning a rental property when you live out of state. Especially when there's a major job to do. Not only did able builders do the job awesome, they went above and beyond to make me feel comfortable with people being in and out of the house while it was vacant. They were always available to talk and were so good with communication and being available to answer my questions. Very happy with everything across the board!" - *Danielle Christian* (Clearwater, FL)
